

## Thug Cry

BRS Kash

Wishing I could touch your face, hold your hand  
Being here without you girl, wasn't in the plans  
Heart enduring so much pain, don't understand  
I wish I could come and hug my best friend  
I don't even need nothing else to love  
Why?  
But I been through so much to make a thug cry  
Thug cry

I'm missing you  
And I know you missing me  
I can feel your presence all around  
I feel your energy  
Why you leave me so soon?  
I'm going crazy girl you leave me no room  
My heart got broken in half  
I left my soul in a bath  
I wish that you called a cab  
Because I was stuck in the lab  
If you did then you would probably still be here  
Life ain't the same not darinque here  
I'm missing you like the bus when I woke up late  
Imma miss staying up all on the phone late  
Cause we could talk about anything, anything  
I even visioned wedding rings  
It ain't the same  
Nooo

Wishing I could touch your face, hold your hand  
Being here without you girl, wasn't in the plans  
Heart enduring so much pain, don't understand  
I wish I could come and hug my best friend  
I don't even need nothing else to love  
Why?  
But I been through so much to make a thug cry  
Thug cry

I sleep with your obituary  
Cause' I ain't wanna leave you in that cemetery  
Your birthday coming up its almost january  
So Imma pour my heart out just like its february  
I wish you could be my valentine  
I enjoy our memories but I ain't satisfied  
I hate you died  
One thing for sure I know you watching over me  
I know you dancing up in heaven because your soul is free  
I hate the fact that we couldn't light the christmas tree  
But your name gon' last forever I put that on me  
I ain't nothing I could do that I could bring you back  
But I do anything to hear you say exact  
Uhhh huuh

Wishing I could touch your face, hold your hand  
Being here without you girl, wasn't in the plans  
Heart enduring so much pain, don't understand  
I wish I could come and hug my best friend  
I don't even need nothing else to love

Why?

But I been through so much to make a thug cry
