

Differently

Bru-C

Good morning England, Wagwan
Yo, yo, yo

Same old life, different me
Turn up the bass and speaker this ones gonna hit differently
Wit' the music, mana been so so consistent consistently
Got the game on my back, I'm gonna make history
Fly out with a different B, now that one misses me
Mana clean up, Mr Sheen, fill up her mouth like Listerine
She said, "Bru can you do that cheeky grin for me?"
Just got away with murder that's a win-win for me
That's a win-win for me

D and B, rep that to the E-N-D
Mad in the brain ADHD
Still balance the E Q frequency
Man said that money talks, I'd rather hear freedom speak
Girl catch air no B and B
Next ting on neck like jesus piece
Recently mana been shutting it down
Running through towns
Mandem loving the sound
No time to be struggling now
Darkness following a man
Bad energy ain't bothering a man
Cos light it, light it, dark ain't dark
No happiness with no sorrow in a man

Same old life, different me
Turn up the bass and speaker this ones gonna hit differently
Wit' the music, mana been so so consistent consistently
Got the game on my back I'm gonna make history
Fly out with a different B, now that one misses me
Mana clean up, Mr Sheen, fill up her mouth like Listerine
She said, "Bru can you do that cheeky grin for me?"
Just got away with murder that's a win win for me
That's a win win for-

Differently, got different different P's
M I S to the T
When I come through it's peak
A long way from the streets
Still get down with the greaze
Still get down with the team
Slide to the show with a beam
(Graft, graft) Consistent graft
Top 3 not last
I've been set some tasks
And I've done it with mass
While man used to get yacked, nah
Ain't no coming back
Used to diss us for our accents
But now put towns on the map

Same old life, different me
Turn up the bass and speaker this ones gonna hit differently
Wit' the music, mana been so so consistent consistently

Got the game on my back, I'm gonna make history
Fly out with a different B, now that one misses me
Mana clean up, Mr Sheen, fill up her mouth like Listerine
She said, "Bru can you do that cheeky grin for me?"
Just got away with murder that's a win-win for me
That's a win-win for me
