

Let It Go

Bru-C

Yo, the ending is approaching, woah
I'm feeling so emotional
Could be the last time to lose control, ohh
The system is so frightening though
Temptations are inviting, woah
This is the one place to feed my soul
I need to let it go

Yo, life's getting worse
Real music will guide me from earth (Let it go)
They get stronger, we get weaker
Turn up the sound through the speaker (Let it go)
I've been scrolling for ages
Global control by the matrix (Let it go)
I write rhymes for a reason
Bru-C, I'm fighting for freedom (Let it go)

Sick of the lies, sick of the bickering people on different sides
The division is why we're seeing no different times
Finish the cries, they're wicked inside
They can't diminish my pride, I'm bringing the vibes
Young people lost ain't no one giving them guidance, listen to I
There's so much pressure to achieve, but I'm looking at success and what the
definition be
People looking up to fake stars flexing with their P's
Make perfection on a screen but content is what they're never gonna be
Newest car or the truest heart, real happiness is finding happiness in who y
ou are
Make your movie don't be looking up to rappers and the movie stars
I'm shining light I see the future's dark
I look around the people there's no interaction
Eyes glued, likes, views, its a big distraction
One voice ain't gonna strike but if millions came to unite we could (Let it
go)

Yo, life's getting worse
Real music will guide me from earth (Let it go)
They get stronger, we get weaker
Turn up the sound through the speaker (Let it go)
I've been scrolling for ages
Global control by the matrix (Let it go)
I write rhymes for a reason
Bru-C, I'm fighting for freedom (Let it go)

We just suffer and suffer
Big up my people that come from the gutter
Now is the time to look past the distractions
They get richer and richer
Leaving the people more bitter and bitter
I don't know what to do but let music flow
We need to let it go

Let it go
Na na na na
Let it go
Na na na na
