

The limit is the sky  
The limit is the sky and we are flying higher than heaven  
The limit is the sky we must try to fight through depression  
The limit is the sky in this life of lies and deception  
The limit is the sky use your mind to find the progression  
The limit is the sky  
The limit is the sky  
The limit is the sky, why why why  
The limit is the sky, yeah

In this cold world, pressure on my brain  
Broke down gotta lift myself again  
Walking these streets see many people are in pain  
The funny thing is that I don't think it's gonna change  
What do you tell yourself, pre the narrative  
Thing is I didn't know I was talented  
I took the losses it was very challenging  
Never thought things could get as mad as this

Maddest thing is that I'm balancing personal issues, aren't we all  
Big events, smallest choices, suddenly we start to fall  
Where will you be at the moment when suddenly darkness calls  
Who will you pick up the phone too, when you find it hard to talk  
Lowest times the real meanings showing signs  
Gave up on life only one person who can change it  
Started constructing a better life, got my graft on, rock bottom was  
the best place to build a foundation  
Now I'm talking to the nation, crazy  
Praise the lord, he took my hand and he saved me  
They didn't care now their sons and daughter play me  
I'm standing with them, I play my own shit on the daily  
And I ain't having any chat  
Want to put up arms with man, I'll just slap him with a track  
Man are back to back to back to back to back to back to back to back  
With shapes up on the decks like ratatat

I keep trying trying  
To feel the wind beneath my wings so I can fly high  
But my journeys just beginning opening up  
Opening opening opening opening opening

The limit is the sky  
The limit is the sky and we are flying higher than heaven  
The limit is the sky we must try to fight through depression  
The limit is the sky in this life of lies and deception  
The limit is the sky use your mind to find the progression
