

Mesmerised

Bru-C

Yeah yeah ayy
Yo

When I look into your eyes
Girl, you got me mesmerised
I see you through the flashing lights
Eyes rolled back, I feel so high
Girl, I been on to you
Ask your ex man what's he gonna do
Bring your friends, we can rendezvous
DJ, spin it on the ones and

When I look into your eyes
Girl, you got me mesmerised
I see you through the flashing lights
Eyes rolled back, I feel so high
Girl, I been on to you
Ask your ex man what's he gonna do
Bring your friends, we can rendezvous
DJ, spin it on the ones and twos

I don't know if I'm falling for you
Or if I am rushing
Mixed a likkle inside my drink
Now I'm starting to feel something
She wants me to leave my life behind
And run so far away
As we're feeling lost inside the night
I turn to you and say

When I look into your eyes
Girl, you got me mesmerised
I see you through the flashing lights
Eyes rolled back, I feel so high
Girl, I been on to you
Ask your ex man what's he gonna do
Bring your friends, we can rendezvous
DJ, spin it on the ones and

I'm like, "Baby girl, it's me and you"
What we telling them
Every time we give life 110%
I see many jealous gyal
And jealous men
That's 'cause you're heaven-sent
Straight outta Bethlehem
I don't trust any of your friends, they are very fake
Don't talk marriage while I'm smoking this wedding cake
Messy generation, money haffi generate
It's a celebration, honey, come and celebrate

Gyal line up and queue for di cumba
Very thick thighs, I ain't new to the thunder
It's only me that she under
Addict for di batty, I'm a fiend for di bunda
Daki make me junda
Pour another drink, I don't feel any hunger

We ain't getting any younger
Afterparty, hit me for di number

I don't know if I'm falling for you
Or if I am rushing
Mixed a likkle inside my drink
Now I'm starting to feel something
She wants me to leave my life behind
And run so far away
As we're feeling lost inside the

When I look into your eyes
Girl, I been on to you

When I look into your eyes
Girl, you got me mesmerised
I see you through the flashing lights
Eyes rolled back, I feel so high
Girl, I been on to you
Ask your ex man what's he gonna do
Bring your friends, we can rendezvous
