

Original Sound

Bru-C

One USB with original sound
Don't play tunes we're flinging em out
Sound system you can feel it get loud
Roof is high but we're bringing it down
When I touch mic you can feel it I'm proud
Skippiest flow with the riddim and bounce
Man take stuff to get the most high wide eyed in the rave ain't feeling no doubts
Ain't gonna comedown no way not ever
Back my raving crew like stella
Any ages see man come together
See many stages the music gets better
Way too hot to be wearing a sweater
Don't stand still in the rave, I'm a sweater
One bag of this and a cup full of that next day mandem ain't feeling so clever, ever
Got to live for the moments
Still next day, no jack man I'm focused
Back in the studio mixing a potion
Make sure the track comes smooth like lotion
Hard work and devotion
Keep it moving, wheels in motion
Riding a wave like I'm in a ocean
Shut downs raves but man are not ghosting
I stick around for the vibes
Go check all the mandem inside
Picking out which girl there wanna whine
Bag of people having a good time
Safe with me man are safe with you
Hosting vibes that'll take man through
F of all chart UK culture this goes out to the raving crew

Headline DJs and the resident guys
Two two wheels no pedalling bikes
Don't matter who's on the decks man vibe
Each factor helps the elements rise
If I'm on the mic man better get hyped
Ain't telling em once ain't telling em twice
Mosh pits - see man taking on guys
Try man I'll go tekken on guys
Smooth like Jin Kazama
Clash and I'll more than chink his armour
Take off ya wig best ring ya barber
Kill it with a pen better bring ya sharpener
Sharpen you little pencil
16 bars are detrimental
Roll true hood, the sets are mental
But out of town shows are sentimental
One girl there tried friendzone man
Put on the brake straight endo man
Got the last laugh in the end though fam
Man I've got more links than a post in lengoland
I get sticky on the riddim I don't watch the tempo fam
Going out to my temple fam
Book for the rules no rental van
Speaker loud make your temple bang
Rough and rowdy not gentle fam

If you ain't down for the set then jam
If you ain't down for the set then jam
Speaker loud make your temple bang
Rough and rowdy not gentle fam
If you ain't down for the set then jam
If you ain't down for the set then jam
