

Playground

Bru-C

Dog eat dog in my town, get up or stay down
Trouble soon come around, this is the playground
Grinding for them pounds
Hope it don't come crumbling down

I been on the front line, tryna get it in
Came from a place most never win
This is real life ain't no editing
What I been thru is unsettling
I'm with a few guys that are on anything
Come thru your block take everything
This is England, the kingdom, the world is ours

Dog eat dog in my town, get up or stay down
Trouble soon come around, this is the playground
Grinding for them pounds
Hope it don't come crumbling down

Already told em that the world is ours
Lookin fucking certi now, motive isn't earning pounds
Mana gonna turn it down, got the game cornered off
These man are just learning how, pussy boy you talk a lot
On a real who's talking now, new day and I'm callin shots
Galdem I ain't callin back, mind up in a torture rack
Holding all my trauma back, music is the remedy
Ain't nothing you're telling me, dog eat dog in my town
You ain't up my my pedigree, nah

Dog eat dog in my town, get up or stay down
Trouble soon come around, this is the playground
Grinding for them pounds
Hope it don't come crumbling down

Welcome to the manor, English swagga vincy bandana
Where mana from no glitz n glamour
It's a day time TV ting, too many homes are under that hammer
This cold will make your bones shatter
Nobody asking me what's the matter
Smile you're ok camera, fuck off, wanker
2 pints bag of crisps, need a lighter for my cig
Used to ride home on a BMX like Mumzy giz a quid
We're the English we're the brits, on a Tuesday we get pissed
You didn't grow up how I grew up, so don't tell man how to live
Do not say a word to me if you don't understand
We can rise in unity without the upper hand
The sun will pour the rain will shine
This is England the kingdom, the world is ours

Dog eat dog in my town, get up or stay down
Trouble soon come around, this is the playground
Grinding for them pounds
Hope it don't come crumbling down

Life moves up and down
You gotta figure it out
Got no time for these fake guys
I don't move with no clowns

Grinding for them pounds
Hope it don't come crumbling down
