

Sunrise

Bru-C

We're dancing till the sunrise
This life I just need to escape
So I'm dancing till the sunrise
I don't know why I'm here in this place
For a good time or a long time
I feel grateful I'm breathing till day
Cause you're only getting one life
I won't stop till I can feel the rays

We'll be dancing till the sunrise
This life I just need to escape
So I'm dancing to the sunrise
I don't know why I'm here in this place
For a good time or a long time
I feel grateful I'm breathing till day
Cause you're only getting one life
I won't stop till I can feel the rays
We'll be dancing till the sunrise
We're dancing till the sunrise
For a good time or a long time
You're only getting one life
Yeah yeah

Yo listen
We'll be dancing till the sunrise
Make the most of time cause you're only getting one life
Sometimes I look up in the mirror and think bun life
But then I take a step back and think about my son's life
Think about my family my daddy and my mum's life
Think about my cousins on the street living the gun life
Think about the people who have nothing in this glum life
Still they wake up smiling, swear those people are above life
Going out to all the people that are suffering
Day time hustling, night time shuffling
This one's a wuppy ting
Vibe with your honey ting
Look up in my eyes cause my mind's really suffering
Hit the stage now it's time to ride the mic
Cause I move through the streets man are blinded by the lights
Wide eyes now man are really climbing heights
We're dancing till the sun now it's really time to rise

Dancing till the sunrise
You're only getting one life -ife
For a good time or a long time
Yeah

We're dancing till the sunrise
This life I just need to escape
So I'm dancing till the sunrise
I don't know why I'm here in this place
For a good time or a long time
I feel grateful I'm breathing till day
Cause you're only getting one life
I won't stop till I can feel the rays
We'll be dancing to the sunrise

We'll be dancing till the sunrise
We're dancing till the sunrise
For a good time or a long time
You're only getting one life
Yeah yeah
You're only getting one life
