

Take Control

Bru-C

We don't need a reason why
Right now I'm gonna live my life
Put it on hold for the vibe
I'm feeling nice, we're here tonight

We don't need a reason why
Right now I'm gonna live my life
Put it on hold for the vibe
I'm feeling nice, we're here tonight, yeah

2-4-7 man are active, UK waving, call me the Captain
Good energies I'm attracting, big up the man round me that are grafting
Brand new tracksuit, brand new tracks in
Stunt on man with nothing but passion
Yard man style, send out bananas, dish out the plantain
Watch the way we get down, hey
Straight from the Nottingham town, hey
Man have got original sound
Front to the back of the crowd let me hear you say yo
Watch the wave we roll 'tru, yo
We don't watch what they do, no
It's the Irn Bru, Imma do me brudda do you, and it goes like

I get the mandem gassed
I make the galdem twist, yeah
First time I did it like that
This time Imma do it like this and again
I get the mandem gassed, gassed
I make the galdem twist, twist
First time I did it like that, that
This time Imma do it like this

We don't need a reason why
Right now I'm gonna live my life
Put it on hold for the vibe
I'm feeling nice, we're here tonight

(Do what I wanna do
Go where I wanna go
Be who I wanna be
Let me take control
Do what I wanna do
Go where I wanna go
Be who I wanna be
Let me take control)

(We don't need a reason why, why, why
Put it on hold for the vibe)

2-4-7 I'm a ruler
This one's called the shaker and mover
'Nuff time man are investing, 'til I've got more money than Peter and Touker
Driving ban so I hop out the Uber
Wavey when I step out the boozier
Ain't talking about John West when I say when I say I've got the wickedest t
una

I mean that's a big tune
Watch the vibe that I bring 'tru
Who's that boy, they're like it's Bru
Flow that's colder than igloos
You've only got one soul
And this life is a long road
I don't move with no console
But I'm keeping in control

We don't need a reason why
Right now I'm gonna live my life
Put it on hold for the vibe
I'm feeling nice, we're here tonight

We don't need a reason why
Right now I'm gonna live my life
Put it on hold for the vibe
I'm feeling nice, we're here tonight
