

# Take It Slow

Bru-C

She wants to roll with me, I'm not saying no  
Tell your friends we're leaving, we're good to go  
She want's all my time, but I'm making dough  
Tell my girl we've gotta take it slow

She wants to roll with me, I'm not saying no  
Tell your friends we're leaving, we're good to go  
She want's all my time, but I'm making dough  
Tell my girl we've gotta take it slow

The way this girl just read my mind  
It's got man calling her jedi  
I just clocked one ting in the rave  
Look back her way and she's gave man dead eye  
I said, don't act stush with me  
If you've got a problem, then you better tell I  
That's when she backed up her tings on mine  
Turn mans screwface into a semi

We make the girls say hello  
Who's on the microphone, I'm that fellow  
Dem boy dere wanna play on the block  
But I roll with the leng, I don't roll with lego

We make the girls say hello  
Who's on the microphone, I'm that fellow  
Dem boy dere wanna play on the block  
But I roll with the leng, I don't roll with lego

R-R-Roll with the leng

Tell my girl, better take that slow  
Pour man a drink, take it slow  
I run the dance, I run the stage show  
Don't rush tings, let's take it slow

Tell my girl, better take that slow  
Pour me a drink, take it slow  
I run the dance, I run the stage show  
Don't rush tings, let's take it slow

She wants to roll with me, I'm not saying no  
Tell your friends we're leaving, we're good to go  
She want's all my time, but I'm making dough  
Tell my girl we've gotta take it slow

She wants to roll with me, I'm not saying no  
Tell your friends we're leaving, we're good to go  
She want's all my time, but I'm making dough  
Tell my girl we've gotta take it slow

See the way that man just finessed this gal  
It's got man calling me Pele  
So much brain in a week that it gave man headache  
I've got too many choices, man are gonna call this year my meze  
I wanna find one ting that will pin man down, just like MMA

We make the girls say hello  
Who's on the microphone, I'm that fellow  
Dem boy dere wanna play on the block  
But I roll with the leng, I don't roll with lego

We make the girls say hello  
Who's on the microphone, I'm that fellow  
Dem boy dere wanna play on the block  
But I roll with the leng, I don't roll with lego

You gotta let man breath and that  
She wanna talk, I'm leaving that  
Told her once, not repeating that

Your ting I'mma leave with that  
Peice of the cake, I'm eating that  
Don't watch how I'm treating that

Tell my girl, better take it slow  
Pour man a drink, take it slow  
I run the dance, I run the stage show  
Don't rush tings, let's take it slow

Tell my girl, better take that slow  
Pour me a drink, take it slow  
I run the dance, I run the stage show  
Don't rush tings, let's take it slow

She wants to roll with me, I'm not saying no  
Tell your friends we're leaving, we're good to go  
She want's all my time, but I'm making dough  
Tell my girl we've gotta take it slow
