

# All The Ways I Want You

Bruce Cockburn

The hills are full of secrets  
Owls watch by night  
Down in town the bars are full  
And the drunks are picking fights  
These are things I know  
But the facts are filtered through  
All the ways I want you

2:19 freight train  
Moaning somewhere near  
I see you in the distance  
But I can't get there from here  
Hard to believe it's happening  
But my whole world's shrunken to  
All the ways I want you

Stars look down and laugh at me  
I ought to take a bow  
Don't have to tell them life's hard sometimes  
There's one falling now  
Nobody's here beside me  
I can talk about it to  
All the ways I want you
