Mango

Bruce Cockburn

She's got a mango in the garden - sweet as can be She's got a mango in the garden - full of mystery She's got a mango in the garden - from the original tree She's got a mango in the garden - shares it with me

Humid gleaming precious well Love to drink that water Parallel worlds when the sun goes down The atmosphere grows hotter

She's got a mango in the garden - sweet as can be She's got a mango in the garden - full of mystery She's got a mango in the garden - from the original tree She's got a mango in the garden - shares it with me

I slip through the glistening gate Tide began to pound Tears of light poured over me And ricocheted all around

She's got a mango in the garden - sweet as can be She's got a mango in the garden - full of mystery She's got a mango in the garden - from the original tree She's got a mango in the garden - shares it with me
