

# Dreamstate

Bruce Dickinson

Well, you bred me  
Well, you fed me  
Well, you made me what I am  
Something for nothing  
Good for nothing  
Well...

It's a dreamstate - a dreamstate  
To kill me with kindness, you'll just have to wait

You say I'm nothing  
You say I'm nothing  
Never gonna be something  
Well, then, that's the life for me  
Your expectations  
Your reservations  
Aw, c'mon, please...

It's a dreamstate - a dreamstate  
You brought it to the vision so you don't have to wait  
A dreamstate of bliss  
A dreamstate of bliss  
A dreamstate...

Now I'm standing up here before the judge  
Jury's got their head where the sun don't shine  
Everybody's lying on my case  
They're lying on  
They're lying on  
They're lying on  
They're lying on my case...

Eyes above me  
Eyes above me  
Never realized there was someone else in here  
No resolution  
And no conclusion  
Do I believe?  
(do I believe? )

In a dreamstate - a dreamstate  
You fell for it, sucker, you fell for the bait  
A dreamstate of bliss  
A dreamstate of bliss  
A dreamstate of bliss  
A dreamstate...  
A dreamstate...
