## **Machine Men**

## **Bruce Dickinson**

Bring the toys out for the boys
Let the children make their noise
See the monsters in their metal cages
Turn the lights down in your soul
Cut the power to your heart
See the carcass in its dying rages

Machine men cannibals of rust
Machine men iron bites the dust
Machine men built with feet of clay
They say they're coming to sweep you all away

What bitter vampire made you this Gave you life with its deathly kiss Ground your limbs to bloody stew Made a new machine of you

Turned a nightmare into day Suck your bream take your life away Beating harder through your veins Someone else's cold remains

Machine men cannibals of rust
Machine men iron bites the dust
Machine men built with feet of clay
Are coming to sweep you all away

Machine men cannibals of rust
Machine men iron bites the dust
Machine men built with feet of clay
Are coming to sweep you all away
Are coming to sweep you all away
Are coming to sweep you all away

Iron in the soul
