

## First Thing About Mary

Bruce Robison

The first thing about Mary, I'll tell you cause you asked  
Is she don't like when people are always livin' in the past  
You know, talkin' 'bout the good old days and how things might  
have been  
If some folks had been different how things might be better now  
for them  
That's what you learn when you've known Mary long as I have

You see, when I met Mary Campbell, that's what her name was the  
n  
It was a party in the woods with a fire in a garbage can  
Everyone stood and watched the embers risin' in the sky  
I was askin' about the little girl with the big brown eyes  
But no one knew the first thing about Mary

But I ain't worried about it no I know it'll all be  
She's gonna come on back to me someday  
'Cause he don't know the first thing about Mary  
She could never love a man that way

You see, the first thing about Mary is that she don't ever lie  
And she can tell if you are just by looking in your eyes  
She'll say that she forgives you and you'll try to make amends  
But once her trust is gone she can't really give it back again  
That's what you learn when you've known Mary long as I have

But I ain't worried about it no I know it'll all be  
She's gonna come on back to me someday  
'Cause he don't know the first thing about Mary  
She could never love a man that way

Pray that they don't dust your life for the little fingerprints

I can't recall my life before her and there ain't been nothin s  
ince  
And they can build great buildings full of stuff I'll never lea  
rn  
But I understand the reason for the fire and how it burns

You see, one thing about Mary not alot of people know  
Is she can't stay in small towns if she thinks she needs to gro  
w  
And you may think its just a phase and she'll soon give in  
And she won't ever leave you, boy, you better think again  
'Cause you can't throw a rope around my Mary

But I ain't worried about it no I know it'll all be  
She's gonna come on back to me someday

'Cause he don't know the first thing about Mary  
She could never love a man that way
