

Any Other Way

Bruce Springsteen

Here you come again, you say that you're my friend
But I know why you're here right now
She wants to know how I've been
Well, you can tell her that I'm happy
Tell her I'm doing great
Tell her I wouldn't have it, no, no, no, no
Any other way

People have been talking since we've been apart
When I pass I hear them whisper, there he goes with a broken heart
Now when she asks about me, this is what I want you to say
Tell her I wouldn't have it, no, no, no, no
Any other way

That's all I have to say, my friend
Now I think we better say goodbye
I think that you should go right now, or you might see a grown man cry
But when you see my baby, this is what I want you to say
Tell her (Tell her) I wouldn't have it, no, no, no, no, no
Any other way

No, no, no
Tell her (Tell her) I wouldn't have it, no, no, no, no
Any other way

Any other way, darling
I wouldn't have it any other way
Not any other way, baby
No, no, no, no, no, no
I wouldn't have it any other way
No, no, no, no, no, no...
