A                                                F#m              Bm
Your scrapbook's filled with pictures of all your leading men
D                E                   A
Well baby don't put my picture in there with them
                              D                   F#m                 Bm
Don't make us some little girl's dream that can't ever come true
D               G                       E
It only serves to hurt and make you cry like you do
E    D            E      A          F#m      Bm         A
Well baby don't do it to me and I won't do it to you
A                                              F#m                    Bm
You see all the romantic movies, you dream and take the boys home
D               E                   A
But when the action fades you're left all alone
                              D                F#m                        Bm
You deserve better than this, little girl, can't you see that you do
D               G                       E
Do you need somebody to prove it to you?
E     D       E      A           F#m     Bm         A
Well you prove it to me and I'll prove it to you
A          F#m                                                A
Now every night you go out looking for true love's satisfaction
           F#m                                          D
But in the morning you end up settling for just lights,lights, lights
, lights
         E
camera, action
A                                                F#m              Bm
And another cameo role with some bit player you're befriending
D                E                   A
You're gonna go broken-hearted looking for that happy ending
                     D                   F#m                Bm
Well girl you're gonna end up just another lonely ticket sold
D               G                       E
Cryin' alone in the theater as the credits roll
E             D                  A
You say I'll be like those other guys
     Bm                     A
Who filled your head with pretty lies
    F#m              D           E
And dreams that can never come true
           D       E     A
Well baby you be true to me
    F#m       Bm          A
And I'll be truuuue to you
```
