

# I Wish I Were Blind

Bruce Springsteen

**G** **C**  
1. I love to see cottonwoods blossom in the early spring  
**D** **G**  
I love to see the message of love that the bluebird brings.  
**C** **D**  
But when I see you walking  
**G** **Em**  
with him down along the strand  
**C** **D** **G**  
I wish I were blind when I see you with your man.

2. I love to see your hair shining in the long summer's light.  
I love to watch as stars fill the sky on a summer night.  
Music plays, you take his hand,  
I watch how you touch him as you start to dance  
And I wish I were blind when I see you with your man.

**C** **D** **G**  
R: We struggle here but all our love's in vain  
**C** **D**  
Well, these eyes that once filled me with your beauty  
**G** **C** **G**  
Now fill me with pain.  
**C** **D**  
And the light that once centered here  
**G** **Em**  
Is banished from me.  
**C** **D**  
Oh, and this darkness is all baby that my heart sees.  
**C**  
And though this world is filled with the  
**D** **G** **Em**  
Grace and beauty of God's hand,  
**C** **D** **G**  
I wish I were blind when I see you with your man.

R: We struggle here but all...

Oh, I wish I were blind when I see you with your man.  
Oh, I wish I were blind when I see you with your man.
