

# One Love

Bruce Springsteen

One girl, one love  
One dream in our hearts  
Two hearts as one  
One hope never to be torn apart

Yeah, come on, baby  
Rock me way down low  
Shake me, darling  
Shake me, don't let me go  
You're the one  
Yeah, you're the one for me

One dream, one dream  
Is all, is all I need  
One reason to believe  
In you, I've found the thing I need

Yeah, come on, baby  
Rock me way down low  
Shake me, darling  
Come on, don't let me go  
You're the one  
Yeah, you're the one for me

Once, I was alone  
So alone, so all alone  
Then you came along  
With a love you said I could call on

Yeah, come on, baby  
Rock me way down low  
Shake me, darling  
Come on, don't let me go  
You're the one  
Yeah, you're the one for me

Come on, baby  
Rock me all night long  
I've been searching for you for so long  
You're the one  
Yeah, you're the one for me
