

There Goes My Miracle

Bruce Springsteen

Sunrise, sundown
The street's gone golden brown
Auburn skies above
I'm searching for my love
Searching for my love

There goes my miracle
Walking away, walking away
There goes my miracle
Walking away, walking away

Moonlight, moon bright
Where's my lucky star tonight?
Streets lost in lamp light
Then suddenly in sight
Suddenly in sight

There goes my miracle
Walking away, walking away
There goes my miracle
Walking away, walking away

Look what you've done, look what you've done, look what you've
done

Look what you've done, look what you've done, look what you've
done
Look what we've done, look what we've done, look what we've don
e

Heartache, heartbreak
Love gives, love takes
The book of love holds its rules
Disobeyed by fools
Disobeyed by fools

There goes my miracle
Walking away, walking away
There goes my miracle
Walking away, walking away
Walking away, walking away
There goes my miracle
Sunrise, sundown
