

# Trouble River

Bruce Springsteen

There's a river runs through this valley  
Cold and deep and black  
Comin' like a tombstone shadow across my back

Trouble river, six foot high and rising  
Trouble river, I can't keep from cryin'

I woke up last night shakin'  
Shakin' from a dream  
That all I seen was smiling faces staring back at me

Trouble river, six foot high and rising  
Trouble river, I can't keep from cryin'

Snakes crawling in the hi house I'm stuck in muddy ground  
Tonight I'm gonna shed this skin  
And I'll be breathin' free air now

Trouble river, six foot high and rising  
Trouble river, I can't keep from cryin'
