

# When You Need Me

Bruce Springsteen

**D            A**

1. When you need me

**D**

Call my name

Cause without you

**A**

My life just isnt the same

**D**

If you want me come sunny

**G**

sky or rain

**D            A**

When you need me

**D**

Call my name

2. If you miss me

I'll be there

To brush the sunlight

From your hair

I'll be there to guide you

When trouble walks beside you

So if you need me

I'll be there

**G**

R: And when this dirty world

**D**

Has been cold to you

**A**

I've got two strong arms waitn' to hold you

**D**

So when thos mean days come along

**G**

We'll stand together and we'll take em' on

**D            A**

So when you need me

Call my name

3. When you need me

Call my name

Cause without you

My life just isnt the same

Cause when this world kicked me around

Baby you picked me up off the ground

So when you need me

I'll be there
