1. Hello!   You know you look even better than the way you did the night before.

                                                                           D
  And the moment that you kissed my lips, you know I start to feel wonderful.

                                           Am   **G**
  It's something incredible, there's sex in you chemicals.

  Let's go!   You're the best way I know to escape the extraordinary.
                                                             D
  This world ain't for you and I know for damn sure this world ain't for me.

                                  Am   **G**
  Lift off and say goodbye. Just let your fire, set me free.

R: Moonshine, take us to the stars tonight
                    D
  Take us to that special place
                          Am   **G**
  That place we went the last time, the last time

2. I know,   I was with you last night, but it feels like it's been so long.
  And everybody that's around me know that I'm not myself when you gone.
  It's good to see you again, good to see you again.
  On top of the world is where I stand when you're back in my life.
  Life's not so bad when you're way up this high.
  Everything is alright, everything is alright.
