The First Time

Bruno Mars

I feel like dancing the night away.
Feels like just yesterday we danced for the first time,
for the first time, remember our first time,
time, time, time, time, ta ta ta ta ta ta oooh.

Let's let the music keep our bodies awake.
Feels like I'm touching you right now for the first time,
for the first time, remember our first time,
time, time, time, time, ta ta ta ta ta ta oooh.

I think i might explode, this tension is so cold.
And all this fighting between us is really getting old.
We need a magic touch, before it all blows up.
We've both had enough, we've both had enough.
So let's just get away, go to that special place.
Where we first met and on the floor my feet were swept away.
Baby it's worth a try, I believe in you and I.
Only takes just one night..

Before we both give in..
Don't let it end..
Let's fall in love again.

I feel like dancing the night away.
Feels like just yesterday we danced for the first time,
for the first time, remember our first time,
time, time, time, time, ta ta ta ta ta ta oooh.

Let's let the music keep our bodies awake.
Feels like I'm touching you right now for the first time,
for the first tome, remember our first time,
time, time, time, time, ta ta ta ta ta ta oooh.

Before we both give in..
Don't let it end..
Let's fall in love again.
Oooh..

I feel like dancing the night away.
Feels like just yesterday we danced for the first time,
for the first time, remember our first time,
time, time, time, time, ta ta ta ta ta ta oooh.

Let's let the music keep our bodies awake.
Feels like I'm touching you right now for the first time,
for the first tome, remember our first time,
time, time, time, time, ta ta ta ta ta ta oooh.
