Brutal Attack

You take me part for my nationalist stance
Take a knife to my heart without giving me a chance
Shut down the papers that tell the truth
And sentence us to prison with no real proof

Rock against Communism
I fight for freedom just like my father did
Rock against Capitalism
The evils that the world have got to be rid

The tide is turning, I can't take no more
It's time we picked ourselves of the floor
For too long they've spread their lies
Now the white man can unite as the last dove dies

Rock against Communism
I fight for freedom just like my father did
Rock against Capitalism
The evils that the world have got to be rid

On the streets or on the battlefield
To this red peril we will never yield
With our hands on our hearts we salute
And with our fingers on the trigger
Those traitors we shoot

Rock against Communism
I fight for freedom just like my father did
Rock against Capitalism
The evils that the world have got to be rid

How long have you stood in silence
Ginen in to pressure and left-wing violence
Now hit back and get what we want
Show them that your proud to stand at the front

Rock against Communism
I fight for freedom just like my father did
Rock against Capitalism
The evils that the world have got to be rid
