

## Tomorrow's Dream

**Brutal Attack**

I can see the old man living in yesterday  
And I can see the young man trying to make his way  
Both are buried in sorrow they sit & dream of a new tomorrow  
Both are buried

Chorus

And I, I understand  
My heart bleeds for my land  
And through the mist I see the light  
And I won't give up the fight  
No I won't give up the fight  
Can you blame your neighbour for giving up the chase

All these years of sweat & labour looks like it was all a waste  
Well lets take heart my friends and we'll fight this to the end  
Well lets take..

Chorus

So listen to these words now make sure you listen good  
Don't you run with the rest of the crowd make sure your understood  
Together we can realise tomorrows dream, its nearer than it seems  
Together we can..
