

## Hideous Mutations

Brutality

Tonight the moon is full  
Metamorphosis  
I feel my body start to change  
Into a creature of hideous proportions  
I've turned into something strange  
Demented animal from the future  
Dissecting victims for their blood  
Strange behaviour abnormality  
The product of an experiment  
Omnipresence has transformed  
My circumference into infinity  
The torture burns inside of me  
Contaminating living flesh  
With diseased infections  
Addictions to hemaglobin  
Chemicals and gases burning through my skin  
Inflicting unbearable pain  
Where is the doctor who created me?  
Inhaling stench of radiation  
Transfigured by toxic waste  
Born to die in torment  
I was not meant for this place.
