## Sea of ignorance

## **Brutality**

Fools wearing blinders
Unaware of their surroundings
It has made them what they are
Looking for their own glory

Psyche consumes them
Covering the paths others have made
Followers trying to lead
Overfilling vessels
Only leading them to their demise

Waves of reality engrossing

Negative energy Helpless from what is created What they give is what they receive Communication absent

No responsibility taken Leaving all to the side For things more important Burning bridges

Built with trust Contractual words exchanged All for profit Doomed to fail
