

Godsend

Bry

You know you need some light to build a common ground
I think we're already there
Or indulge me with the drugs that you messed around
As if I'd struggled to care

But if you took a minute
I'd be a godsend
I swear I'd spent a night trying to pick you up again

Hey, you, don't seem to care about
Names, chores, brush through the park where we're lovers
Where we're lovers
And hey, you, don't seem to care about
Me, chores, brush through the park
Where we're lovers
Where we're lovers

Don't you need this like a race or a powerplay
'Cause in the state
I'm inclined to say if I'm game or not
We may love the same medicine
And we can lack the same negative
You can spend the night tryin' to fix me up again

But if you take a minute
I'd be a godsend
I swear I'd spent a night trying to pick you up again

Hey, you, don't seem to care about
Names, chores, brush through the park where we're lovers
Where we're lovers
And hey, you, don't seem to care about
Me, chores, brush through the park
Where we're lovers
Where we're lovers

But if you took a minute
I'd be a godsend
I swear I'd spent a night trying to pick you up again

Hey, you, don't seem to care about
Names, chores, brush through the park where we're lovers
Where we're lovers
And hey, you, don't seem to care about
Me, chores, brush through the park
Where we're lovers
Where we're lovers
