

Staying Together

Bry

I want to be in love with you forever

Forget about the childish doubts, my silence when we talk about
You going somewhere without me
Every Sunday evening time, you pack your bags and we leave mine
And I purposely leave late and hope your bus comes early
But There's so many things that'll stop us from staying together
r
But I want to be in love with you forever

If I drew up a contract would you sign and agree to share your
life with mine
Or would the romance die in that split second
I want to stay in this paradise, quoting you lyrics every night
Not telling you which ones that I wrote myself
About the, oh, so many things that'll stop us from staying together
ther
But I want to be in love with you forever
Yes, I want to be in love with you forever, ever

But there's so many things that'll stop us
There's so many things that'll stop us
There's so many things that'll stop us
From staying together

But I want to be in love with you forever
Yes, I want to be in love with you forever
Yes, I want to be in love with you forever
Yes, I want to be in love with you forever
