

She's Got a Way

Bryan Adams

She's got a way - of getting inside your soul
She'd breach the walls of Jericho
Make you fall like virgin snow
She's got a smile, makes you forget the things
You were only just thinking about
It kind of turns me inside out
And if I try to conceal, she's got a way to reveal

I feel so naked - I feel so totally exposed
It's such a mystery, how she seems to know, every part of me
I feel so shaken - and it's like everybody knows
Whenever she touches me, no one else can feel, as much as me
Ya she's got a way

She's got a way - of taming the wild in me
With patience and serenity
I'm drowning in her reverie
And I can't run away she's got a way to make me stay

She comes to me like rain falls down my window
Sure as night will follow day - I'll surrender
Ya she's got a way
