

Together Forever

Bryan Adams

I was lost like a ship at sea
No hope, no faith, no plan
You fill my cup and lift me up
So I can be a better man

I was livin' life day by day
Doin' anything to survive
You give me strength and confidence
You make me feel alive

There was something about you, baby
I knew it right from the start, oh yeah

Together forever, you and me
We're gonna make it somehow
Together forever, finally free
And all our tomorrows start now, yeah

Things were movin' at the speed of love
And we followed it to the letter
There ain't nothing that a man can do
That a woman can't do better

I had a feeling inside of me
I'm glad I listened to my heart, oh yeah

Together forever, you and me
We're gonna make it somehow
Together forever, finally free
And all our tomorrows start now, oh yeah

Together forever, you and me
We're gonna make it somehow
Together forever, we're finally free
And all our tomorrows start now, oh yeah

Together forever, come on
