

Dear Alcohol

Bryan Andrews

I got wasted 'cause I didn't wanna deal with myself tonight
My thoughts get drowned until I feel alright
And I keep drinking till I'm someone I don't recognize
I got wasted

I got wasted 'cause I didn't wanna deal with myself tonight
My thoughts get drowned until I feel alright
And I keep drinking till I'm someone I don't recognize
I got wasted

Repeat the cycle everyday I gotta start with a drink
My life's been getting sorta crazy and I don't wanna think
I look myself right in the mirror and I don't even blink
Then I get angry take the rest and pour it right in the sink
I know where this road goes
Alcohol ain't my friend but I keep drinking 'cause these demons roam
And follow me round everywhere I go
It clouds my mind and soul
It turns my heart cold
But I keep drinking 'cause it makes me feel like I'm not alone

I'm having problems, my pride won't let me reach out
Looking at this bottle having nothing but doubt
Don't wanna drink but it keeps coming around and around and around

I got wasted 'cause I didn't wanna deal with myself tonight
My thoughts get drowned until I feel alright
And I keep drinking till I'm someone I don't recognize
I got wasted

I got wasted 'cause I didn't wanna deal with myself tonight
My thoughts get drowned until I feel alright
And I keep drinking till I'm someone I don't recognize
I got wasted

I know I need to quit
I gotta do better
Example to these kids
Cause they're watching when I'm there
But I'm scared
Cause I been chasing the man that I am when I start to drink
He's cocky confident and he don't give a damn what you think
This world is beating me down, it's pushed me right to the brink
I take a shot every time because man it helps me escape
I'm taking care of these people but no one takes care of me
I want to talk to somebody but I feel no one relates
I need better now I think I've lost my way
I'm having battles with faith it's painted right on my face

I got wasted 'cause I didn't wanna deal with myself tonight
My thoughts get drowned until I feel alright
But I keep drinking till I'm someone I don't recognize
I got wasted

I got wasted 'cause I didn't wanna deal with myself tonight
My thoughts get drowned until I feel alright
And I keep drinking till I'm someone I don't recognize

I got wasted
