

Love Me Today

Bryan Andrews

Don't wait until last breath leaves my lungs
To let me know that I'm your one
Don't let your regrets beat a song
'Cause you can't love me when I'm gone

Don't wait until tomorrow
Don't wait for the right time or place
Don't wait until you think you found the right words to say
Just love me today

If it's true what they say, and only good die young
Then I'd keep my sin to be alive in your arms
But god makes the rules, we've only got so much time
And I'm wasting seconds wishing you were mine

Don't wait until tomorrow
Don't wait for the right time or place
Don't wait until you think you found the right words to say
Just love me today

Don't wait until tomorrow
Don't wait for the right time or place
Don't wait until you think you found the right words to say
Just love me today

Don't wait until last breath leaves my lungs
'Cause you can't love me when I'm gone
