

It Gets Better

Bryan Duncan

It gets better
Closer to the love of my life
it gets better
It gets better
Closer to the love of my life
it gets better
The love of God is sneakin' up on me
Just turned around and here it comes I see
Closer he gets
Closer I wanna be
It gets better closer to the love of my life
So never mind all the trouble I've seen
Just caught a vision on a trampoline
Tell everybody I'm takin' the highest road home
It gets better
Closer to the love of my life
It gets better
It gets better
Closer to the love of my life
It gets better
Once you've found the best thing in life is still free
There's no place else to go for me
It gets better
Closer to the love of my life
It gets better
It gets better
Closer to the love of my life
It gets better
One step further, never back
Am I there yet?
No, but I'm happy where I'm at
Just gets better closer to the love of my life
It gets better
Closer to the love of my life
It gets better
It gets better
Closer to the love of my life
It gets better
