

## Love You with My Life

Bryan Duncan

I would like to say  
Just before I leave you  
I'll be back some day  
So do not be afraid  
Only watch and pray  
And wait for my return

I've done what I must do  
My work here is completed  
It's all been done for you  
Believe what I have stated  
I will give you peace  
Through all your tribulations  
Until I come again

Please know that I love you  
I'll stay by your side  
If only now in spirit  
I'll still be your guide  
You will not suffer long  
For I have suffered for you  
I love you with my life

I'll prepare a place  
Where we can live together  
I'll meet you face to face  
To share our new forever  
Don't let your love grow cold  
And I will not allow  
What's more than you can bear

Please know that I love you  
I'll stay by your side  
If only now in spirit  
I'll still be your guide  
You will not suffer long  
For I have suffered for you  
I love you with my life

Love you with my life  
Love you with my life  
Love you with my life
