

Friendly Fire

Bryan J

Picture me happy, picture me cool
Picture me laughing, that's what I'd do
Picture me right here, I'd never move
I turn around and picture me without you
Picture me crying, it's not fair
Picture me trying, but going nowhere
Picture me helpless, to my fears
Picture me hopeless, but girl you don't care
How do I keep it in, I'm wounded
Paramedics better come soon, yeah
It's a disaster, down to the wire

I think I, I think I, I, I've been hit by friendly fire
It's the worst pain that I ever could feel
Gonna be a long time before these scars heal
It's a disaster, down to the wire
I think I, I think I, I, I've been hit by friendly fire, fire, fire
And it burns, and it burns, and it burns
I think I, I think I, I, I've been hit by friendly fire

I'm losing patience, with myself
The fault is mine girl, can't blame no one else
I took a backseat, with our love
I guess I didn't really know what it was
These nights are lonely, without you
Tell me baby who you've been chilling with, who
Is there somebody stepping into my shoes
Doesn't matter 'cause any way I lose

It's the worst pain that I ever could feel
Gonna be a long time before these scars heal
It's a disaster, down to the wire
I think I, I think I, I, I've been hit by friendly fire, fire, fire, fire
And it burns, and it burns, and it burns
I think I, I think I, I, I've been hit by friendly fire

Both hands up
I'm reaching for the sky
I was wrong, I surrender
I can see it in her eyes
Was a casualty, love didn't die
But I know, I'm taking shots to keep our love alive

It's the worst pain that I ever could feel
Gonna be a long time before these scars heal
It's a disaster, down to the wire
I think I, I think I, I, I've been hit by friendly fire, fire, fire
And it burns, and it burns, and it burns
