

He Is The Light

Bryan & Katie Torwalt

I feel the nations of the earth are shaking
There is no power that can match His grace
Lift up your head, lift up your eyes to see

All of creation is waiting and longing
For sons and daughters to declare this truth
Lift up your head, lift up your voice to sing

He is the light shining in the darkness
He is the hope, hope of all the nations
He is the light, He is the light
For all the world to see

I feel the faith across the earth is rising
We prophesy about His kingdom come
Just like heaven all across the earth

Cause He is the light shining in the darkness
He is the hope, hope of all the nations
He is the light, He is the light
For all the world to see

And He is the light shining in the darkness
He is the hope, hope of all the nations
He is the light, He is the light
For all the world to see

Great, great is the Lord
And praise His name
Praise His name

Great, great is the Lord
And praise His name
Praise His name

Great, great is the Lord
And praise His name
Praise His name

He is the light shining in the darkness
He is the hope, hope of all the nations
He is the light, He is the light
For all the world to see

And He is the light shining in the darkness
He is the hope, hope of all the nations
He is the light, He is the light
For all the world to see

He is the light shining in the darkness
He is the hope, hope of all the nations
He is the light, He is the light
For all the world to see

And He is the light shining in the darkness
He is the hope, hope of all the nations
He is the light, He is the light

For all the world to see
