

# Save Me

Bryan & Katie Torwalt

Save me  
From leaning on my own understanding  
Honestly, what have I left to prove?  
When all the questions lead me back to You

Meet me  
Find me in the joy of the beginning  
Before the world had told me what You couldn't do  
When I had that simple childlike faith in You

I just wanna be in the room, where my heart says yes  
Just to see You move, so I can breathe again  
I wanna be lost in love, hallelujah  
I want to be in the room, when You move

Keep me  
Find me here content inside the waiting  
Let every shadow come into the light  
Let every heart discover that You're kind

I just wanna be in the room, where my heart says yes  
Just to see You move, so I can breathe again  
I wanna be lost in love, hallelujah  
I want to be in the room, when You move

I can see again  
I can feel again  
I believe again  
I can hope again  
I have joy again  
I believe again  
Like a child again  
I can dream again  
I believe again  
I can see again  
I can feel again  
I believe again

I just wanna be in the room, where my heart says yes  
Just to see You move, so I can breathe again  
I wanna be lost in love, like hallelujah  
I want to be in the room, when You move

Just to see  
Oh, to see You move  
I can breathe again  
Lost in Your presence  
Hallelujah  
When You move
