

Don't Say

Bryant Barnes

I told myself I met you at the wrong time
These situations got you in the headspace
Where you gave up on everyone in your life
You need someone to love you in the right way

I said "I won't tell you lies"
So why are you still afraid to try?

She said "If you wanna kiss me, don't say, love"
"If you wanna touch me, don't say, love"
'Cause if you do, I might end up loving you
She said "If you're gonna miss me, don't say, love"
"If you're falling for me, don't say, love"
'Cause if you do, I might end up loving you, oh

I might wanna bother you this whole time
But babygirl you might just be a rare case
And I just got a feeling that we won't die
'Cause this a type of feeling that you can't fake

I said "I won't tell you lies"
So why are you still afraid to try?

She said "If you wanna kiss me, don't say, love"
"If you wanna touch me, don't say, love"
'Cause if you do, I might end up loving you
She said "If you're gonna miss me, don't say, love"
"If you're falling for me, don't say, love"
'Cause if you do, I might end up loving you, oh
