

Last Year

Bryant Barnes

Don't make me wait
Don't make me suffer
I'm in the rain
You're in the thunder

Won't seal our fate
Maybe you'll choose me
Don't hesitate
You'll never lose me

No
I know you're scared, but
I won't let you feel alone

Maybe if we met last year
Wouldn't have to watch your heart disappear
Wish I would've met you first
Wish I could've loved you the way you deserved

Ooh
Ooh

So hard to let go
Can you just try?
Eyes on a tightrope
Won't let you cry

Heart at your doorstep
So can you open up and tell me what I need to hear?

Maybe if we met last year
Wouldn't have to watch your heart disappear
Wish I would've met you first
Wish I could've loved you the way you deserved

Ooh
If only I met you on the other side
Ooh
Where love was something special
And made you feel alive

If only I met you on the other side
