

Limbo

Bryant Barnes

Say what you mean, mean what you say
Don't tell a lie
You're my nicotine, can't stay away
Another night
No

Payphone, pick up the call
Take me home, once and for all
Limbo, love me or let me go
Let me go

'Cause I'm locked up in your waiting room again
Again and again and again
And I'm losing track of all the time I've spent
Again and again and again
Are you still making up your mind?
Don't leave me on the other side
'Cause I'm locked up in your waiting room again, no
Again and again and again

If it's a heart you're gonna need
I'll give you mine
And you can rip it apart, do as you please
But don't wait another night
Oh

Girl, I'm at the payphone, pick up the call
Take me home, once and for all
Limbo, love me or let me go
Love me or let me go

'Cause I'm locked up in your waiting room again
Again and again and again
And I'm losing track of all the time I've spent
Again and again and again
Are you still making up your mind?
Don't leave me on the other side
'Cause I'm locked up in your waiting room again, no
Again and again and again

'Cause I'm locked up in your waiting room again
Again and again and again
And I'm losing track of all the time I've spent
Again and again and again
Are you still making up your mind?
Don't leave me on the other side
'Cause I'm locked up in your waiting room again, no
