

Burn Fast

Bryce Fox

I said hey, you
Perfectly on cue
At the end of the night
As I recall, I said hey babe
When you walked my way
You caught me on fire

Save me the time
I'll save you the trouble
When you've had enough
And I can't take it anymore
Something about her
When she said hello
Taking you home
I'd rather burn fast

Than let it burn slow
So let it burn, let it burn baby...
Let it burn fast
Yeah

I sang Hey Jude!
Perfectly out tune
By the end of the drive
Got a little lost
You won't like me
'Cause every memory
We'll set them on fire

Something about her
When she said hello
Taking you home
I'd rather burn fast

Than let it burn slow
So let it burn, let it burn baby...
Let it burn fast
Let it burn fast
Then let it burn slow

She said don't think
It's time for us to change
So, shake my hand before it's too late
So let it burn burn burn burn
Let it burn burn burn burn
Let it burn burn burn burn
I'd rather burn fast

Then let it burn slow
So let it burn, let it burn baby...
Let it burn fast
Let it burn fast
Yeah

Don't think it's time for us to change
So, shake my hand before it's too late
