

## Strength

Bryce Fox

You want me sinking down with your anchor round me  
You want me speechless and hallow  
Paint me as a devil guilty from your treason, yeah  
If the blood boils then let it bleed  
I'm never losing sleep over you...

You might not know what you do  
But you give me my, you give me my strength and  
You give me something I can't lose  
Cause you give me my, you give me my strength

Careful, careful what you wish for  
Don't try to be a king without a kingdom, yeah  
Cause your mouth keeps running on and on  
Now you're lost in these badlands... I said

You  
You might not know what you do  
But you give me my, you give me my strength and  
You give me something I can't lose  
Cause you give me my, you give me my  
You give me my, you give me my strength

I said you might not know what you do  
But you give me my, you give me my strength and  
You give me something I can't lose  
Cause you give me my, you give me my  
You give me my, you give me my strength
