

Voodoo

Bryce Fox

I'm in the business, a risky business
You're so inviting, I can't resist it
I know you, baby doll
I know you, you do voodoo

I know your intake
My flesh and love break
My paranoia, my insecurity
But still I want you all
I know you, you do voodoo
I know it

It's like I'm born to play with fire, I think I like it
I want your trouble by my side, I think I like it
I want to feel your pins and needles
Pins and needles
I know you, you do voodoo

Ain't got no stitches in single digits
You got inside me, I got your message
I know you, baby doll
I know you, you do voodoo

I love your company, sexy richness
That's what I'm finding them crazy bitches
I swear that I'm in love
I know you, you do voodoo
I know it

It's like I'm born to play with fire, I think I like it
I want your trouble by my side, I think I like it
I want to feel your pins and needles
Pins and needles
I know you

And now, the breakdown

It's like I'm born to play with fire, I think I like it
I want your trouble by my side, I think I like it
I want to feel your pins and needles
Pins and needles
I know you, you do voodoo
