

Anything For Her

Bryce Savage

Tattoos on her skin
Butterflies on her wrist
5'5" she a ten
I would do it all again
Green eyes pull me in
And she know just how to sin
He'd do anything for her and
She'd do anything for him

Tattoos on her skin
Butterflies on her wrist
5'5" she a ten
I would do it all again
Green eyes pull me in
And she know just how to sin
He'd do anything for her and
She'd do anything for him

She likes stay up late
Listen to her music while she fades away
Pretty face
Body full of tattoos cover empty space
Kind eyes
Man the time flies when I'm by your side
I just wanna live a fast life with your hand on mine...

Like a drug
I'm in love
I get used
To your touch
I get bored
Need the rush
I want more
Your my crush
In this world
Where I hate
Most the things
And the stuff
Your the first
Help me feel
Something other than numb...

I know that things won't always be perfect...
But I can tell you'll always be worth it
So this my last stop, no more searching...
