

She look good in black
Yeah she bad
Whiskey and the tats, I ain't never coming back
She a freak with class
Heart attack
She a good, bad girl if you can handle all of that

Yeah she a little baddie with an attitude
And she a little bratty, needs a badder dude
Someone who could tame her, make her have to do
All the things that she thought she would never do
But now she likes it
Yeah when she bites her lip-
I know I'm on to something in, her naughty mind it clicked
She's an addictive fix-
But I can't get over it
I need another hit, I don't think I'll ever quit

She look good in black
Yeah she bad
Whiskey and the tats, I ain't never coming back
She a freak with class
Heart attack
She a good, bad girl if you can handle all of that

I like the way she...
MOVES
What a view
Bad bitch attitude, and a few tattoos
When she...
MOVES
I approve
Take your time baby, I'm just here for the view
