She been looking good ain't nobody could replace that  
She would look fire even if she had a face tat  
Gotta admire that booty ain't fake ass

Got all my desires bottled up she could change that  
Never get tired of that body, she the main cat  
Got'em on fire when she dance, she gon slay that

A straight 10  
I'm all in  
Love at first sight when she walked in  
5 foot 5  
And some tan skin  
But the pleasers on her feet make her 5'10"  
She could make a man go crazy, save me  
Wait don't save me I like it when she slay me

She like it when I call her out her name call her baby  
We get turnt up, bonafide, on the daily  
Sippin in the cuzzi champagne red cups  
Pop a couple bottles when her friends show up  
Just a couple givers that's our language of love  
We can never get enough uh  
Beach bunny waist man I love her taste  
And I love her face  
And I love the chase  
Come sit on my... "what"  
Sorry got carried away  
I don't know what else to say think I'll marry her today

She been looking good ain't nobody could replace that  
She would look fire even if she had a face tat  
Gotta admire that booty ain't fake ass  
I just wanna chase that cuz, you can't replace that  
Got all my desires bottled up she could change that
