(She's got a head filled with demons)

She's got a head filled with demons
You're lucky if you get to see 'em
A pretty face yet a heathen (let's go)
The dark with her's a different feeling
She'll leave you reeling

She a little baddie with a face like that
She gonna call you daddy if you lay it like that
She got a few tatty's on display like that
She sweet like candy yea she taste like that
She got 'em addicted like drugs
They fallin' in love
It's never enough
She hear the rumors yea all of the buzz
About what she does
Yea they all discuss
She got a skin that is soft but she rough
She learned to be tough
She still doesn't trust
She got 'em feeling all kinds a stuff
Riddled with love
Riddled with lust

She's got a head filled with demons
You're lucky if you get to see 'em
A pretty face yet a heathen (let's go)
The dark with her's a different feeling
She'll leave you reeling
