

Hero

Bryce Savage

Green's her favorite color
Doesn't like to leave home
Stay under the covers
She listens to emo
She is like no other
Doesn't like to be alone
Hate to watch you suffer
Let me be your hero
She's been way too numb
Yeah, I know, yeah, I know
Kill her feelings with some drugs
Take it slow, take it slow
She still believes in true love
Don't let go, don't let go
'Cause the road ahead is tough
We could grow, we could grow

She plays tough even when it gets rough
And she, loves love
She just wants to feel loved
So she takes stuff just to feel a little rush
But she, just wants someone who can take her from empty
Hate when your mad even more when your sad
I'd do anything just to bring you all back
I feel what you feel
That's how soulmates attract
And if we want to burn it down then together we crash

And I'm right here
So don't be scared
I'll be there
When you need me

She still believes in true love
Don't let go, don't let go
'Cause the road ahead is tough
We could grow, we could grow

And in her eyes I can see
She has crazy energy
That she wants to be free
No responsibilities
Making constant memories
Interested in everything
Down to try anything

Gypsy blood fuels her dreams
I'm really glad that I found you
Happier when I'm around you
I will never let you down
No I will never let you down

And I'm right here
So don't be scared
I'll be there
When you need me
